

FRIDAY, MARCH 1, 1872.

Weymouth Statistics.

The annual report of the town officers has been published, and from its pages we make an abstract of the items of expenditures, etc., for the information of our readers abroad. Expended for schools \$16,560.13; school-house repairs, 2,779.72; roads, 17,246.27; town-house, 52.29; lock-up, 80.95; printing, 4.35; town officers, 3,353.25; miscellaneous, 1,111.55; State aid, 6,116.25; town poor, 4,875.55; bonds and notes paid, 48,474.30; interest, 534.44; State tax, 9,875.75; County tax, 1,531.71; non-resident tax, 4,696.88; discounts and remittances, 3,273.50. Total, \$127,993.14. Receipts, \$153,707.68. The town debt is \$36,352, with assets of \$33,081.62, balance \$2,444.06.

The State aid to disabled soldiers and seamen and their families was paid to 66 persons—an average of nearly \$64.00 to each person.

In the preliminary remarks of the report, it is stated that the change in the law relating to assessment of shares in banks, increased the town receipts \$4,871.41, which was applied toward the town debt, which now stands about one per cent of the valuation. The report of the Board of Commissioners which saddled Weymouth with one-half of the town's maintenance, is still pending in the Superior Court. The Board have decided that when persons are called to aid in extinguishing fires, they cannot legally claim compensation, as such services are rendered on the ground that the Commonwealth has a claim on her citizens when public safety is endangered.

The appropriation recommended for 1872, amount to \$67,500. By the tables of vital statistics we learn that the number of marriages recorded by the Town Clerk is 72; number of births, 253; number where both parents were natives of the United States, 129; number where mothers were foreign and fathers natives, 45; number where fathers were foreign and mothers natives, 12; number where both parents were foreign, 103; number where both parents were natives of Weymouth, 76.

The report of the School Committee evinces good results from the school work of the year, and in the matter of High Schools they make some excellent suggestions, which will probably be amply discussed at the annual meeting, the warrant containing articles inserted at the request, bearing upon the same, and other questions. They also renew a recommendation to employ a Superintendent. The number of scholars in town is 1,888.

SCHOOL ENTERTAINMENT.—The entertainment given Friday evening, February 23d, by the pupils of the Broad Street Grammar School, was a success, pecuniarily, at least, the net proceeds for the school being \$164.00. The parts were generally well leagued and sustained, while some of the pupils did very well indeed. The entertainment had been given before, and if some of the pupils had spoken louder, and had kept in the front, instead of in the back of the stage, it is hoped that they will pay particular attention to these two points whenever they appear upon the stage again.

On this connection, we must be allowed to offer a few suggestions to the audience. First: those who had seats, should have occupied them, instead of standing when the curtain was raised. Second: those without seats in the back part of the hall, should have refrained from whispering, talking and laughing to amuse themselves, because they could not see over the heads of those standing (many on the seats) in front of them. Third: those who go to places of amusement, lectures, etc., should whisper and laugh, utterly regardless of those around them, and thus stay away.

If these suggestions were strictly observed, the room would have been pretty quiet, and nearly everything that was said and done upon the stage would have been heard and seen.

OBSERVER.

BENEFITS OF STATE CHARITIES.—The benefits of the various institutions which have been aided by legislative grants and private bequests, is a subject of great importance, and one which should be carefully considered in the case of a young man named Tirrell residing at Weymouth Landing, near a boat-mate, and who for some time was a patient in the Dumb and Deaf Asylum at Hartford, where he obtained a good education under the instruction of the Principal, and is now engaged in mechanical employment, with a compensation as large as is received by his fellow-workmen, he having earned in one day, in a recent test of his ability, about \$6.00, by the labor of his hands.

CARD.—Reynolds Post, 58, G. A. R., take this opportunity to thank the generous public of Weymouth and surrounding towns, for the liberal patronage bestowed upon their late concert and ball, and to thank them by their liberality to continue the work of relieving destitute soldiers, and widows and orphans, who have lost husbands and fathers.

We would also extend thanks to Messrs. Garey, Eldridge, Porter, and all others who aided in carrying out the plans of the committee and were instrumental in making the occasion one of unusual interest.

ELDRIDGE NASH, BEN'S S. LOVELL, Committee on Concert and Ball.

[Reported for the Gazette.]

POLICE COMMISSIONERS REPORT for week ending Feb. 17, 1872.—Liquor Process, 147; Aggravate Assault, 45; Aggravate Assault, 106; Total, 208. Seizures of Gaming Implements, 6; Seizure of Obscene Prints, 1; Fines and Costs, turned over to County Treasurers, 1,000.00.

During the January term of the Superior Court for Essex County, there were forty-five parties sentenced to the House of Correction, for selling liquor, and all sent.

RUM'S DOINGS.—Mr. Benjamin Dyer, whose habits of intoxication have many times brought him into the hands of the law, was arrested by Officer Garey, last Monday for an assault upon his wife on Sunday, while under the influence of liquor. During the excitement the incendiary made kindling wood of the household fixtures, and his conduct generally was that of a furiously insane person. When the officer called to arrest him, he endeavored to obstruct the work of the law by attempting to floor Officer Garey with a boot, but was quieted by a gentle tap of the billy. He has been sent to the House of Correction for three months.

OPENING OF NEW STORE AND HALL.—A pleasant entertainment was provided by Mr. John W. Bartlett, the popular storekeeper at North Weymouth, for a large party of friends, who were attending the new building erected by him being completed, and the circumstance being thought worthy of a gathering to give expression to the good will and friendship of the friends of the new building, and the exercises, with an excellent collection, which all present partook of with zest.

CAUCUS.—A Citizens' Caucus for nomination of town officers is to be held this evening, at the Town Hall, and as the board of Selectmen for the past year have done their worst, well, it is probable there will be no change unless some member of the present Board should decline further service.

BRAINTRITE.

BRAINTRITE CITIZENS MEETING.—We have viewed, with much interest, the developments of this question, topics at the meetings of the Citizens' Club, which have been so faithfully and ably reported by our correspondent "Amey."

Being invited by himself arrived at the conclusion that the establishment of such an institution was a timely movement, one calculated to advance the interests of the people, educational and otherwise, and react favorably upon the interests of the town. It has been a matter of regret in other places that such institutions, when established, were but short-lived, the people soon losing their interest in the meetings, but from the vigor with which the discussions are carried on, and the interest manifested in them by many of the leading citizens, it is probable that the Citizens' Club has a prolonged lease of life, and will long continue its work of educating the public mind, elevating the tone of society, and adding to the prosperity of the town.

BRAINTRITE CITIZENS CLUB.—Mr. Editor.—The Club met on adjournment, Wednesday evening, Feb. 22d, President in the chair. The question, relating to town affairs and improvements, was immediately taken up and discussed.

Being invited by himself arrived at the conclusion that the establishment of such an institution was a timely movement, one calculated to advance the interests of the people, educational and otherwise, and react favorably upon the interests of the town. It has been a matter of regret in other places that such institutions, when established, were but short-lived, the people soon losing their interest in the meetings, but from the vigor with which the discussions are carried on, and the interest manifested in them by many of the leading citizens, it is probable that the Citizens' Club has a prolonged lease of life, and will long continue its work of educating the public mind, elevating the tone of society, and adding to the prosperity of the town.

Mr. Humphrey would like to call the attention of the School Committee, of which were present, to the rumors which were in circulation, to the effect that the admission of candidates to the High School, he believed there were those present who felt somewhat aggrieved by the action in regard to the matter, and he explained to the satisfaction of all parties.

Mr. Mason inquired if the gentleman had any specific charges to make? Mr. H. said he had not, but thought that there were those who had.

No one rising to support the charges, Mr. Mason then proceeded to read a letter, especially upon standards in general, and especially upon those who could harbor in groceries and on street corners, making charges and statements, which they had not the goodness to retract, and in public before the Committee, or in public before the Club. He explained the method of making the selections from among the candidates, and showed the impossibility of partiality being shown. He said the assistant had been kept in the High School as long as possible on the appropriation, without regard to the matter.

Mr. Cavanaugh thought the committee too conscientious in the matter, as the town would certainly have made up all such deficiencies.

Mr. Pennington inquired in regard to the promotions from grade to grade in the lower schools.

Mr. A. S. Morrison, of the Committee, explained that the committee had been promoted to a higher grade at any time, and he recommended of his teacher. It would be unjust to keep a child a whole year in one grade, when it was capable of holding its own in a higher grade.

Mr. Shaw was surprised to hear that the High School was not as much the poor man's school as it was formerly. He thought that the appropriations were not large enough to support the school, and he thought that they should be increased.

Mr. Mason replied that last year they did not get all the money that they should have, and he thought that they should be increased.

Mr. Cavanaugh thought the committee too conscientious in the matter, as the town would certainly have made up all such deficiencies.

Mr. Pennington inquired in regard to the promotions from grade to grade in the lower schools.

Our Legislative Letter.

The "long agony" on the division of the town of Randolph is over. There is no talk about it, but has come before the legislature this winter that has been so persistently worked upon both sides as this. Since the commencement of the session, committees representing both remonstrants and petitioners have been in the State House, way-laying members in the corridors, ante-rooms, and on the floor of the House, and reiterating the same old arguments, all and several, in the various articles which were offered for sale, were disposed of at fair prices, and the Circle realized over and above all expenses about two hundred dollars. It was a very successful affair, and the singing also was very fine, especially the solo singing by Mrs. Ella Cushing, which met with a laudatory applause. The vestry was filled each evening to its utmost capacity. The proceeds of the Fair are to go towards the purchasing of a new carpet for the church, which is very much needed. The Circle is a very industrious organization; whenever the church wants painting, or a new organ is needed, or a new carpet to be laid, the Circle are always foremost in raising the money. They gave five hundred dollars towards the new organ recently put into the church, and are soon to purchase a new carpet, which will cost five hundred dollars. May success attend them, and may they ever be blessed for their united and untiring efforts for the interest and benefit of the society.

WASHINGTON'S BIRTHDAY was observed in this place by the ringing of the bell at morning, noon and night; the National flag, and the schools were closed for the day. In the evening Post 42, G. A. R., had a social gathering at their hall, in response to an invitation given out by Post, some fifty invited guests were present. The Bicknell Troupe, assisted by Gilbert Hunt, Esq., Basses, were present, and the occasion was very enjoyable.

Mr. Bates was expected to be present and address the assembly, but owing to the inclemency of the weather was unable to attend. The meeting was very successful, and the proceeds of the Fair are to go towards the purchasing of a new carpet for the church, which is very much needed.

INSTALLATION AND DEDICATION.

Pursuant to letters missive a council convened in the new edifice of the Union Congregational Church and Society, at South Weymouth, at ten o'clock on Tuesday, 27th inst. The council organized by the choice of Dr. E. Russell, of the Weymouth Church, Randolph, as Moderator, and Rev. L. B. Voorhees, of the Pilgrim Church of North Weymouth, as Secretary. It was found that all the churches invited to the Council were represented. The action of the Church and Society in regard to the installation of a new pastor, Rev. James McLean, and his acceptance of the same, was examined and approved. The candidate for installation was then examined in his religious views and experiences, and the examination was voted entirely satisfactory.

After an excellent dinner in the vestry of the church, the following programme was proceeded with: Invocation, Dr. R. A. Delaney; Reading of Scripture, Rev. L. B. Voorhees; Prayer, Rev. H. H. Hayes; Installing Pastor, Rev. J. H. Means; Right Hand of Fellowship, Rev. Geo. M. Stanton; Address to the People, Rev. Geo. E. Freeman.

These exercises, interspersed with some creditable singing, proved highly interesting, and the council adjourned, leaving with their new Brother, their kindest welcome and most affectionate regards.

The dedicatory services for the new house of worship occurred in the evening, the exercises calling out a good attendance. The pastor enters upon his work under very pleasant circumstances.

Mr. Editor.—Permit me through your columns to briefly notice the superior entertainment given last week by Post 58, G. A. R. I think every one will agree that the music, both vocal and instrumental, was of the highest order, and reflected great credit not only on the performers, but also on the committee who had the honor in charge; showing to the people that while their object is to increase their charitable efforts, they do not neglect the spread of the good word, and that they are one may profitably enjoy an evening spent with them in this way. From the very large audience present they must infer that their cause was well appreciated and that they are very grateful to the citizens who favored them so nobly with their presence. The audience certainly was one of the most noble and best behaved ever collected within the walls of the Town Hall. Possibly there might have been a little more of the "singing" assistance of Gen. J. L. Bates, who in his half of the Committee arose, and in a clear, sonorous voice, invited the whistlers to disperse with them to the hall, and to the music of that part of the music. They immediately complied, and an evidence of respect to the man who has done so much towards elevating the standard of the G. A. R., and who, for the honor left to the cause, stands at the head of Post 58. May each member strive to imitate his example of temperance, and endeavor in business affairs, and in social life, to adorn the principles of right and justice, and to be a blessing to the widows and orphans, and smoothing the pathway of their comrades who are sick and enfeebled, by their cheerful and unselfish aid.

The gross receipts of the Concert and Banquet were \$671.86. The net profits about \$350.00, adding a handsome sum to their established fund.

EASTER SALE AND ENTERTAINMENT.—The ladies of Trinity Parish, of Weymouth, are making preparations for an Easter Sale and Entertainment, to take place on Monday, Tuesday and Wednesday, April 1st, 2d and 3d.

HOLBROOK.—A correspondent of the Randolph Register replies to the statement of Rev. J. H. Bates, of Weymouth, in the Legislature, that the petition of the inhabitants of East Randolph for a division of the town, originated in the minds of the residents of East Randolph, in the following manner: "No statement could have been less in harmony with facts than the statement of the Rev. J. H. Bates, of Weymouth, in the Legislature, that the petition of the inhabitants of East Randolph for a division of the town, originated in the minds of the residents of East Randolph, in the following manner: "No statement could have been less in harmony with facts than the statement of the Rev. J. H. Bates, of Weymouth, in the Legislature, that the petition of the inhabitants of East Randolph for a division of the town, originated in the minds of the residents of East Randolph, in the following manner: "No statement could have been less in harmony with facts than the statement of the Rev. **My Darling.**  
Darling, my darling, of insidious the fairest;  
Mine, though thy lips never spoke unto me—  
Mine, though I know not the name which thou  
bestest;  
How can I go like a stranger from thee?  
Go, when my soul to thy beauty is kneeling,  
Go, when thy dark eyes to me are revealing  
Passion, God given, which spurneth concealing.  
False seems the custom which holds us apart;  
Love,  
Oh, could we trust to the spirit alone,  
Soon would thy head bend rest on my heart,  
Love—  
Soon would my burning lips cling to thine  
own  
For oh, mine are mine by the heaven's decree—  
ing,  
Yes, thou art mine by my soul's divine seeing;  
Thou couldst I feel the deep loves of my being.  
Day after day all expectant I've sought thee;  
Somewhere I knew, watched my beautiful  
one;  
Night after night have the dream angels brought  
thee.  
In spirit to help me and beckon me on;  
Now when I've found thee at last, ne'er to  
doubt thee,  
Now when my arms should be folded about  
thee,  
Come back by Fate, I must go on without thee.

**Farm, Garden and Household.**  
**GRAINING HORSES' FEET.**—A Canada correspondent says the effect of graining the hoofs of horses to make them shiny is to cause them to almost cease growing and become hard and brittle. He condemns the practice.

**FARM CELLARS.**—When it is remembered that impure air or unpleasant odors, which may gather in the cellar, will find their way into the dwelling apartments above, it is seen how necessary it is that all decaying vegetables should be removed and fresh air admitted. No cellar should be without good ventilation, and the roots and vegetables stored therein should occasionally be inspected.

**CHERRY'S TART BISCUITS.**—On NOTIONS. Take one pint of flour and make into dough, as soft as possible, with a pinch of sweet milk, a saltspoonful of salt, two ounces of butter, and two ounces of lard. Roll out with the bread-pan, into round cakes, nine inches in diameter, and make a hole in the center. Bake in a slow oven. In baking, do not allow them to brown, but remove from the oven while they are in their whiteness, yet are crisp, and moist in the mouth.

**FATTY STEAKS.**—Steak should be allowed from a pound to a pound and a half of grain per day, according to their size, and it is well to give them one feeding of hay per day and all the straw they will eat. Wool is demanded, and the sheep will desire to keep their sheep and cut their wool before selling. On this account it is not improbable that those who sell fat sheep the latter part of February or the first of March, may realize more profit than by keeping them later.

**BROWN TURKEYS.**—A writer in the Hartford Times tells what he knows about Brown Turkeys from practical experience. "Brown turkeys are a cross between the domestic and the wild turkeys, and make the strongest and finest birds. They resemble as closely as possible the original stock, and look not dissimilar to the wild birds, and next to them weigh the heaviest, fatten the most rapidly, and can be reared with much less trouble than any other variety.

**SOAP.**—A young lady, who makes all the family soap, gives the following recipe for a good cheap article: Add to 10 quarts of water, 6 pounds of quicklime (shell lime), 6 pounds of putchallin, 10 pounds common washing soda. Put all together and boil for half an hour, and let stand all night to clear. Draw off the lye, and add to it 1 pound common resin, and seven pounds of fat (any fat will do). Boil this for half an hour, then let it stand till cool and cut into bars.

**TO PRESERVE LARD.**—Lard can be preserved for a length of time without complete protection from the atmosphere. It may be kept perfectly well for any length of time by filling it into bladders, which are tied at the neck and hung in a cool cellar. When used, the bladder is cut through and the lard taken out as needed. The perfectly white lard exposed for sale in the grocers' shops is very often adulterated with lard, and next to nothing gives a fine color, but enables the grocer to give a fine color to the lard, by forming a soapy compound.

**NEW ENGLAND CHOWDER.**—Have a good haddock, cod, or any other solid fish; cut in pieces three inches square; put a pound of butter and salt into the pot; set it on the fire and stir it up; take out the pork and put it in a layer of fish, over that a layer of onions in slices, then a layer of fish with slices of fat salt pork, and so on, alternating with fish and onions, and so on alternately until your fish is consumed; mix some flour with as much water as will fill the pot; season with black pepper and salt to taste, and boil it for half an hour. Have ready some crackers, Philadelphia pilot bread, if you can get it, soaked in water till they are a little softened; throw them into your chowder, and serve minutes before you take it up. Serve in a tureen.

**PREPARING TREE SEEDS FOR PLANTING.**—As long as the cold, freezing weather continues, hard seed and nuts may be prepared for planting in the next spring. It is very often the case that a few nuts or other coarse seed have been laid in the fall and neglected, until they have become so dry that there would be little chance of growing if planted in the next condition next spring. All such seeds and nuts desired for planting should be soaked for a few hours in warm water, then mixed with sand, and placed in a box or under doors where they will not freeze, or at least remain cool and moist until wanted for planting. Apple, pear, cherry, plum, and other fruit tree seeds may be treated in this way with benefit. All the larger species of nuts, as well as Oregan and other hedge plant seeds, require similar preparation to make them grow rapidly.—*Rural and New Yorker.*

**LOST BREAD, OR RISEN BISCUIT.**—For an eight o'clock breakfast make sponge thus: The day before, at three o'clock A. M. in winter, or at three P. M. in summer: two large Irish potatoes, peeled and mashed fine, two tablespoonfuls of flour, and two tablespoonfuls of fine brown or coarse white sugar; mix smoothly with one pint of boiling water. When cold, add five tablespoonfuls, or one pint of good stout, and mix your bread with this sponge, in winter mix it o'clock in the afternoon, with two and a half quarts of flour, two eggs, well beaten, and one spoonful of lard and butter mixed. If simple bread is preferred, the eggs, butter and lard may be omitted. Put the bread to rise in a moderately warm place, in a vessel covered, but large enough to admit of the loaf being turned morning work well at half past five o'clock, set it to rise for one hour, and then bake one hour in a regularly heated oven.

**FOUR CANS CONTAINING LIVE STOCK** were wrecked on the Connelville Railroad at Dayton's Station, by the "telescoping" of two freight trains. One man was fatally injured and many of the animals were killed. Somebody neglected to display a signal.

**THE U. S. SENATE COMMITTEE ON ELECTIONS** agreed to report in favor of admitting General Ransom, the new Democratic Senator from North Carolina.

**My Darling.**  
Darling, my darling, of insidious the fairest;  
Mine, though thy lips never spoke unto me—  
Mine, though I know not the name which thou  
bestest;  
How can I go like a stranger from thee?  
Go, when my soul to thy beauty is kneeling,  
Go, when thy dark eyes to me are revealing  
Passion, God given, which spurneth concealing.  
False seems the custom which holds us apart;  
Love,  
Oh, could we trust to the spirit alone,  
Soon would thy head bend rest on my heart,  
Love—  
Soon would my burning lips cling to thine  
own  
For oh, mine are mine by the heaven's decree—  
ing,  
Yes, thou art mine by my soul's divine seeing;  
Thou couldst I feel the deep loves of my being.  
Day after day all expectant I've sought thee;  
Somewhere I knew, watched my beautiful  
one;  
Night after night have the dream angels brought  
thee.  
In spirit to help me and beckon me on;  
Now when I've found thee at last, ne'er to  
doubt thee,  
Now when my arms should be folded about  
thee,  
Come back by Fate, I must go on without thee.

**Items of Interest.**  
The deaths from small-pox at Philadelphia, last week, were 134.  
Sprengerville, Mass., has elected Miss S. Williams to be City Physician.

It has been judicially decided by the Supreme Court of Maine that an oyster is a fish.  
Reports from the South state that this year's crop will be small, probably 1,250,000 bushels.

The English press directory, which has just appeared in print, gives the number of journals published in Great Britain at 1,456.  
The case of Joseph D. Smith, on trial at Bangor, Me., for the murder of Thos. S. Jocelyn, the jury has found him guilty.

The Ohio State Fair for the next two years will be held at Mansfield, from the 24 to the 6th of September. Increased premiums will be offered.  
At Salt Lake the whole Mormon ticket was elected. Under the female suffrage law crowds of Mormon women and girls flocked to the polls and voted.

The Agricultural Convention adopted a resolution that Boards of Agriculture be established by the Legislature in States where they do not already exist.  
The Senate of West Virginia has passed a bill to amend the railroad law, so that the State or station-towns at the nearest points to towns of 500 inhabitants or more.

As American named Minar was shot and killed in London by a man who was a workman, who mistook his victim for a man of the name of Minar, whom he intended to murder.

A bill has been presented in the German Reichstag, to make the German language the official language in the conquered provinces of Alsace and Lorraine.  
Mr. Washburne, the American Minister at Paris, has received information from his government to negotiate a postal treaty between the United States and France.

Is the Tiberborne case the examination of the witnesses for the defense has commenced. Lord Beller was on the stand, and his testimony was very damaging to the claimant.  
A CATHACAN on the California coast, if he makes up his mind to kill a Chinaman in the bosom of his family, sends a friend with him to see it done, if he wants to be punished.

Is the Elkin wheat factories three hundred of the five hundred employees are girls, who earn from ten to twenty cents a week, and the more they do, the more the work more skillfully than men.  
AL is quiet in the Philippine Islands, the revolt against Spanish authority having been completely suppressed, the leader executed, and the surviving nutters tried and eleven of them sentenced to death.

PASSENGERS by the steamer from Mexico state that the government is certainly able to defeat the revolution, and that the accession of Lerdo de Tejada to the Presidency is certain in case of the downfall of Juarez.  
The reported capture of Dr. Loaces and Aguacua, the Adjutant-General of the Revolution, by the Spanish troops, is untrue. They were wounded slightly, but succeeded in escaping with their companions.

The latest estimate of Life Insurance is that the existence of Mr. P. S. Gilmore has been insured for \$200,000 in fifteen different offices, by the guarantors of the Boston Jubilee Fund, the policies to run for six months.  
The trial of the first of the Low Angeles riot murder cases resulted in a verdict of not guilty, the District Attorney stating he had only Chinese testimony to rely on, and that it was not sufficient.

CALIFORNIA PAPERS announce the death of Mr. B. F. Washington, an editor of the San Francisco Examiner, at the age of fifty-seven years. He was born in Virginia, by birth, and a friend and descendant of a brother of George Washington.  
The officer who was sent to Rio de Janeiro to inquire into the cause of the death of the late President, Mr. Brazil, has completed his labors, and is expected to return shortly and submit the result of his investigation to the Government.

THREE persons were found guilty of the murder of several Dominican friars in the town of Augueta, France, and were condemned to death. Nine others were convicted of complicity in the crime and were sentenced to imprisonment.  
KING AMEDUS, of Spain, has become disgusted with the unmanageable disposition of the Spanish people, and has urged his father, King Alfonso, to abdicate, so that he might be able to rule in peace.

The trustees of the Massachusetts Society for Promoting Agriculture propose to hold an exhibition, during the month of September, a four days exhibition of thoroughbred stock and dairy produce, for which prizes amounting to \$14,000 will be offered.

A boy named Krotzer, employed on the Delaware and Hudson Railroad, on stepping to unclose some cars, slipped and fell across the track, the train passing over him and severing his legs. He was killed. The train was stopped, and the body was found on one side of the track, a considerable distance from the body, which was upon the other.

A STRANGE SITUATION—An interior New York paper notes a singular case in law between two brothers. The testimony shows that during the drafts of 1863, the defendant escaped service on the strength of his brother, who had declared himself to be the only support of a helpless father. He then lived on a well stocked farm, and was surrounded by all the comforts of a country home. Soon after the draft business, it was declared that he turned out the old man, and that he had since refused to contribute toward his support. For a time the poor old fellow wandered about from place to place, seeking for his friends, which had known him under different circumstances, until he at length contrived to reach the house of his brother, where he received a cordial welcome, and where he has since been cared for. Now it appears that the second son is the poorer of the two, and is now seeking for his brother, who is determined to make the elder, the richer, and the more selfish, furnish him of the expense.

HORRIBLE—A grandmother, granddaughter, and grandchild—the latter a girl seven years of age—have been brutally murdered at the village of Aube, in France. The grandmother was found dead in her chair, with two deep wounds in her left breast, the grandchild lying in her bed, and its mother a short distance from the house, being, it is supposed, killed when she attempted to flee. The escaped from the house, her bedroom bearing traces of a fierce struggle with the murderers. One of the windows was found open, the sides were smeared with blood, which gave strength to this supposition.

It is feared that the Canadian surveying party, which arrived at the mouth of the left Dunbar, in open boats, for the north of Lake Superior, about a month ago, have perished in some storm.

**Army Life on the Plains.**  
Under the most auspicious circumstances, says Gen. Custer, and in time of peace with the Indians, the life of an army officer on the Plains or along our frontier is at best one involving no little personal discomfort, and demanding the sacrifice of many of the luxuries and comforts which he could obtain were he located within the limits of civilization. To many officers, service in the West amounts almost to social exile. Some can have their families with or near them. There is a limited opportunity for social intercourse; travel from the States, to and across the Plains, either for business or pleasure, is interrupted, and mail facilities with friends and relations in the States are maintained. An Indian war changes all this. The troops must prepare to take the field. Provided with comfortable quarters, necessarily limited in this respect by the amount of transportation, which on the Plains is narrowed down to the smallest practicable, the soldier finds himself alone with his gun, and with one of home, and with his comrades in arms set out, no matter how helement the season, to seek what? Fame and glory? How many men have reaped laurels from the Indian campaign? Does not strive to win the approving smile of his countrymen? That is, indeed, in this particular instance, a difficult task. For the soldier is not only a soldier, but a citizen, assisting in a campaign against the Indians, if he survives the campaign he can feel assured of this fact, that one-half of his fellow-citizens at home will be his enemies, and will regard him as a traitor, if he achieves any, a massacre of poor, defenseless, harmless Indians; while the other half, if his efforts to chase the common enemy are successful, will with satisfaction, will cry, "Down with him. Down with the regular army, and give us brave volunteers who can serve the Government in other ways besides eating rations and drawing pay."

**About a Snake.**  
The Richmond correspondent of the Petersburg Index, tells the following: "A gentleman, a physician, resident near the Warm Springs, had now on a snake in his house. The snake was a rattlesnake. The doctor was recently sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. The doctor was then sent to see a lady of his neighborhood who had been bitten on the ankle by a rattlesnake. When he reached the place, he found the lady in a state of great alarm. He immediately administered the remedy, which had been given to him by a friend of his, and the lady recovered. The snake was then killed and sent to him. are worth \$5 each in New Orleans church fairs. The Bostonists are worth \$10, \$20 and \$30 for the \$2 price tag through the \$1 rose of the victor's coat.

the victor recently made a point in lifting the power of the law saying that it was the Central Railroad-Baltimore, 1,000 feet shorter to-day than on July of last.

variety for the prevention of cruelty to animals, in the shape of experiments, in the shape of experiments, the vanity of motives, delights in, to be established in Boston.

city City man paid heavy express on a box labeled, "An American-made jack-knife—handle with care," and it was contained, as he professedly said, "only an old turkey gobble."

ed, *Boston Transcript* is of opinion no grand jury in New York can be induced hereafter to indict a murderer, and he is going to give bonds, in a sum not, not to prosecute them for "big."

scullers railroad to cause a Western railroad train into betting that it could beat that parlock which carried about. He took the bet between the lock with a sledge ham-

an arriving home at a late hour a worse for too much supper, and coatless, was asked by his valet, spouse: "Where's your hat and coat?" "In my dear, (he) Chicago sufferers."

versation in a Wisconsin store-

[illegible]

that at some future period. They quite well felt England won't pay reparations over and over, as it would be the case if they were to go to war; nevertheless, they think it better to be always ready to defend their little bill. As for English Ministry, it is serious and anxious to get the situation complicated.

At the close of last session it had rated as a great victory the 'settling' of the Anglo-American difficulty. The opening of the new session led it to declare that it was a mistake. It mistakes too generally and too repeatedly prolonged have but one **g**—a break-up.

**NEW YORK WEALTH, TAXATION AND INDUSTRY.**—The census tables of 1900, taxation and public indebtedness, and the statistics of the various branches of the real estate in the State of New York at \$1,532,720,907, and the assessed value of personal property \$344,478,781. The net population of the State is 4,500,841,264. The total of taxation, five per cent. of the assessed value, is \$76,500,416, for the last year. The assessed value of real estate is \$48,388,627; divided as follows:—\$14,388,627, in cities, towns and villages; \$33,999,999, in the country. The total value of real and personal estate in New York City is placed as \$8,481,000,000, or the whole State sixteen counties of Albany, Erie and Westchester, Kings, Rensselaer and Westchester, \$18,372,029. Kings is given the wealth of \$1,532,720,907. Kings is given at \$700,000,000. The other five range between \$200,000,000 and \$165,000,000 each.

**TEMPERANCE** revival is reported throughout Connecticut.
